Road Report. 2024 Road Plan was presented. Town Board will get bids for a seal coat on High Point Road, double seal coat on Burris Road (using \$21,000 TRIP money), seal coat on Red Hill, and wedging(on half and all) of Bigelow Hill Road. The bids will be presented at the May 2024 Board Meeting.

ARIP Project. This project is specifically for agricultural roads that are weight limited. Robert Dries pursued filling out the application, but in the process found that we do not have a road that meets the specifications of this project.

Replacing the Culvert on Spring Valley Road. Board reviewed the plans proposed by Westbrooke Engineering for different culvert options from 2021. We have put this project on hold several times due to inflationary costs. We have \$72,500 of TRIP, which needs to be used by 2025, this is only about half the cost of that project. Board will revisit this at a later date.
